

# Fife Environment Partnership FEP

[www.refsol.co.uk](http://www.refsol.co.uk)

# Who are FEP

- Fife Council Environment,
- Enterprise and Communities Directorate, Senior Manager, Sustainability Head of Transportation & Environmental Services (Council Lead for Adaptation)
- Fife Economy Partnership/Green Business Fife
- Fife Rural Partnership
- NHS Fife
- SEPA
- Scottish Natural Heritage – Chair
- University of St Andrews
- Fife Coast & Countryside Trust
- Third Sector Representation
- Elected Member Representation
- Scottish Water
- Forestry Commission

**FEP are a network much like the FCCAN with a vision and aims to deliver environment benefits across Fife**

**We meet 4 times a year**

### **Our Vision**

To set a clear direction for partners tackling climate change in Fife with specific focus on carbon emissions reduction and climate change adaptation

## FEP

The Scottish Government instructs councils to deliver policies and strategies.

FEP delivered the Climate Change strategy for Fife council with a target of 42% reduction in emissions by 2020. In line with Scottish targets.

FEP/Refsol will monitor and report on progress towards tackling climate change through a Sustainable Energy Climate Action Plan (SECAP)

# Linking to Europe

## European Union *Covenant of Mayors* initiative

- **Sustainable Energy Climate Action Plan**

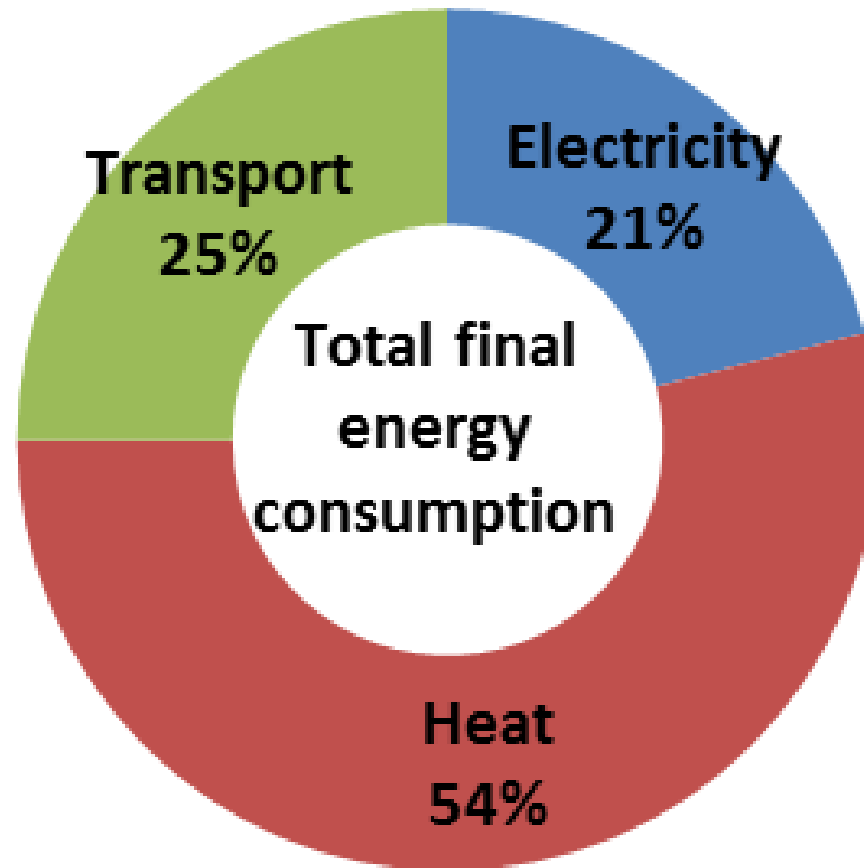

- Accelerating decarbonisation – 40% by 2030
- Increasing energy efficiency and renewable energy sources
- Strengthening capacity to adapt

**...secure,  
sustainable,  
affordable  
energy**

# Energy demand in Scotland

# How to decide what projects to do

- Look at where energy demand is
- How to reduce that demand
- How can we supply demand with low carbon energy.

# Community consultations

- Initial community consultations will be held in January and February 2017 around SECAP projects.
- We would welcome feedback on where best to locate these consultations.

# FEP August Projects Fair

## Aims and objectives

- Knowledge of climate reduction projects happening across Fife
- Increase project partnerships to enable greater impact
- Sharing of skills and knowledge,
- Networking opportunities
- Funding opportunities
- Ability to record projects and their carbon impact

# FIFE RESOURCE SOLUTIONS

## Key themes

- **Themes for presentations**
- The Heat issue
- Electric and transport
- How we can work together to increase reduction in Climate emissions ( FEP, Council and community groups)
- Funding
- **Themes for Events**
- Recycling, reuse and up cycling
